(57) Abstract:

PROBLEM TO BE SOLVED: To obtain a powdery cosmetic having a moderate gloss without causing the glittering or shining at the time of coating, good in lasting of makeup without dullness with time and excellent in protecting effects on ultraviolet rays.

SOLUTION: This powdery cosmetic is obtained by

formulating mica coated with a rutile type titanium oxide with a makeup cosmetic. Thereby, the resultant powdery cosmetic is good in lasting of makeup without causing the glittering or shining after the coating while retaining a pearly luster and further excellent in protecting effects on ultraviolet rays without dullness with time.
